---

I live in Nelson BC and primarily work as a cinematographer and editor for many different productions including documentaries, tourism campaigns, action sports, music videos and commercial work. I have several hundred completed projects to date. I also direct my own short videos for many different clients. I do aerial cinematography as well and work with Transport Canada to get proper approval to fly. I can work in any environment, but mostly enjoy working outdoors. I am very passionate about filmmaking and being in nature alike. I also shoot in indoor studio environments and interviews. I do whatever it takes to get the best shot in any scenario!

### **Clients/Projects:**
