I live between Vancouver and Nelson BC and primarily work as a cinematographer for many different productions including documentaries, tourism campaigns, action sports, music videos and commercial work. I have completed several hundred projects to date and have experience in all aspects of the filmmaking process (producing, directing, post-production: Premiere, After Effects, DaVinci Resolve). I also direct my own short films and commercials for many different clients.

I have my level 1 workplace first aid, fall protection, scissor/boom lift, WHIMIS and actsafe safety tickets. In 2022 I completed the North Island College Motion Picture Lighting Course, and I am proficient at operating many different industry standard lights and grip equipment. I am also a Destination BC approved videographer. I own my own production equipment (camera, lenses, gimbal, crane, drone etc) as well as my own editing suite. I can work in any environment from shooting products in studio to shooting out of a helicopter to backcountry ski touring! I am very passionate about filmmaking I do whatever it takes to get the best shot in any scenario!

(DP = Director of Photography)
